## UTILITY EASEMENTS

At Bryan Texas Utilities (BTU), we understand that electrical equipment such as transformers, poles, and guy wires, are not the most aesthetically pleasing items to have in your yard. However, these items are necessary to provide you with safe and reliable power. It is imperative that BTU have unobstructed access to repair and maintain this equipment. Residents should keep the necessity for access to equipment in mind when landscaping or constructing anything near electrical facilities.

If access to equipment is blocked, crews may have to remove the obstacles which may prolong outages. Obstacles may include, but are not limited to, trees and shrubs, storage buildings, fences, and poured concrete. There should be no objects within ten (10) feet of a pad-mounted transformer. Customers should take care not to block transformers and consider plant root infiltration of underground utilities. BTU's distribution easement for overhead lines is ten (10) feet on either side of the centerline, or twenty (20) feet in total. Customers should consider height and reach of plants at maturity when planting near overhead utilities.

Help us maintain safe and reliable electric service by adhering to utility easements and not placing any obstructions around electrical equipment. Please also remember that residents must call Texas 811 to have underground utilities located and marked prior to beginning any excavation work on your property.

# POOLS

To learn more about pools, visit: [bryantx.gov/pools](http://bryantx.gov/pools)

## Bryan Aquatic Center 979.209.5222

**Daily Admission Fees: Child (ages 4 - 11) \$2 / Adult (ages 12+) \$3**

Olympic-sized heated pool, featuring the double-flume waterslide, the only public diving board in the area, a zero-depth beach entry area perfect for families, and plenty of space for the whole family to bask in the sun! The pool is available for rent after hours and on a first-come, first-served basis.

The diving board, waterslides, and recreation swim activities are only available during the summer season. Lap swimming is available year-round at the Bryan Aquatic Center.

9 - 11 a.m. / Sue Haswell Park

Event is brought to you by:

## CONSERVATION TIPS

### Energy Conservation Tip:

**Let in the warm sun.** Allow natural sunlight to warm the rooms in your house on bright on bright chilly mornings by opening window shades, blinds, or curtains.

### Water Conservation Tip:

Replace your standard irrigation clock timer with a newer, more water-efficient controller and you could save nearly 8,800 gallons of water annually.
