Admission is free!

TravisFields.com/WinterWonderland

CONSERVATION TIPS

Energy Conservation Tip:

Reverse ceiling fan direction in the winter to a clockwise rotation. This creates an updraft and helps spread heat more evenly.

Water Conservation Tip:

Hand-washing dishes takes more time than using a dishwasher. Let your dishwasher do the work and you'll save almost 10 days a year while saving money and water! If washing dishes by hand, use a basin of soapy water or plug your sink.
