DECLARE INDEPENDENCE

FROM HIGH ENERGY BILLS!

This summer, as we celebrate the 250th anniversary of our founders declaring independence, you can take action to save energy and lower your utility bill!

HERE ARE JUST A FEW STEPS YOU CAN TAKE:

DEFEND YOUR HOME FROM AIR LEAKS

Take a look around your doors and windows. If the seals are cracked or damaged, or if you can see gaps, you're letting your air conditioning out! Seal these gaps with caulk or weather stripping to keep the cool air you're paying for inside.

COMMAND YOUR A/C LIKE A GENERAL

Set your thermostat as high as comfortably possible while you are home and even higher when you are away. For every extra degree you lower your thermostat, you can expect to spend 3-5% more on electricity.

REVOLUTIONIZE YOUR COOKING

Cooking with your stovetop or oven adds extra heat to your home. Consider cooking outside on a grill or utilizing smaller appliances like slow cookers or pressure cookers to avoid additional taxing of your air conditioning.

FAN THE FLAMES OF FREEDOM (NOT YOUR A/C)

While fans do not create cooler air, they make you feel cooler by creating a "wind chill" effect. By using a ceiling fan, you can raise the thermostat by four degrees without feeling a reduction in comfort. Just remember to turn the fan off when you leave a room to maximize savings!

PURSUE HAPPINESS SOMEWHERE COOLER

You can get out of the house and still beat the heat by enjoying libraries, the mall, movie theaters, and indoor playgrounds! Or, take the fun to the water in your backyard or apartment pool, one of the pools operated by the city, Lake Bryan, or even just a sprinkler or slide in your yard!

GENERAL ELECTION CALENDAR

CONSERVATION TIPS

ENERGY:

Did you know that certain improvements to your home's energy efficiency qualify for a rebate from BTU? Visit btutilities.com/SmartHome for more details.

SmartHOME
saving makes sense

WATER:

Opt for shorter, cooler showers in the summer to help keep your home cooler and conserve water during drier months.
